Separate paging is given to this Part in order that it may be filed as a separate compilation

## PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

### THE PATENT OFFICE

#### Patents and Designs

Calcutta, the 14th December 1957

#### Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

28th November 1957

- 62415. Amal Kumar Ghosh. Improvements relating to adjustable wrenches.
- 62416. American Flange & Manufacturing Co. Inc. Light weight pneumatic sealing tool.
- 62417. Commissariat A L'Energie Atomique. Improvements in piles of nuclear reactor elements and in particular of moderator material elements.
- 62418. Claude Paz Et Visseaux. Cold and Hollow Electrode. [Addition to No. 56006.]
- 62419. Ciba Limited. New Benzimidazoles and process for their manufacture.
- 62420. J. S. Mollerhoj. Electric power cable with oil filling.
- 62421. General Electric Company. Improvements in or relating to compressor rotor.
- 62422. Libbey-Owens-Ford Glass Company. Electrically conducting unit.
- 62423. Heyden Newport Chemical Corporation. Improvements in or relating to herbicides.
- 62424. T. Maneklal Manufacturing Company Limited. Improvements in or relating to the drive of open width soaping machines and the like by the incorporation of differential drive units.
- 62425. T. Maneklal Manufacturing Company Limited. Improvements in or relating to mangles and allied machines by the incorporation of pneumatic pressure exerting device.
- 29th November 1957
- 62426. Council of Scientific and Industrial Research. A process for the oxidation of toluene to benzaldehyde.
- 62427. Esso Research and Engineering Company. Process for handling rubbery polymers.
- 62428. The Indian Oxygen & Acetylene Company Private Limited. Improvements in or relating to electric arc welding torches. (29th November 1956).
- 62429. The Indian Oxygen & Acetylene Company Private Limited. Manufacture of Steel. (30th November 1956).
- 62430. Dunlop Rubber Company Limited. Improvements relating to the manufacture of rubber products. (14th December 1956).
- 62431. Svenska Ackumulator Aktiebolaget Jungner. Electric Battery.

62432. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Process and machine for the continuous production of corrugated laminates of plastic materials.

62433. Strachan & Henshaw Limited. Improvements in or relating to Charging and Discharging Machines. (30th November 1956).

62434. Strachan & Henshaw Limited. Improvements in or relating to Apparatus for use in Charging and Discharging a Vessel. (30th November 1956).

62435. J. L. A. See. Improvements in or relating to a building element for scaffolding and similar construction work.

30th November 1957

62436. General Electric Company. Fixed stator vane assemblies.

62437. D. P. Asar. Venetian blinds.

62438. KNOLL Aktiengesellschaft. Process for the preparation of basic derivatives of Salicylamide forming easily water soluble salts.

62439. The General Superintendent on behalf of the Hindustan Antibiotics Private Limited. An improved process for the manufacture of N:N'-dibenzylethylene diamine.

2nd December 1957

62440. Kulkarni Madhusoodan Vinayak. R. V. Improved Village Ghani.

62441. N. M. Shah. Heat Sensitive Recording Paper.

62442. Imperial Chemical Industries Limited. New Colouration process. (14th December 1956).

62443. Imperial Chemical Industries Limited. New heterocyclic compounds. (14th December 1956).

62444. Societe Des Usines Chimiques Rhone-Poulenc. Process for the production of new indole derivatives. [Addition to No. 59129.]

62445. E. K. Cole Limited. Improvements in or relating to Television Receivers.

62446. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Manufactured products from linear 1-butene high polymers having substantially isotactic structure. [Addition to No. 61902.]

62447. Riedel & Co. Improvements in or relating to acid baths for producing brilliant copper levelling coatings.

62448. Ciba Limited. Metal salts of formo-sulfathiazole and process for their manufacture.

62449. Standard Telephones And Cables Limited. Semiconductor devices and methods of manufacturing such devices. (5th September 1956). [Divisional date 24th May 1957.]

62450. Standard Telephones And Cables Limited. Semiconductor devices and methods of manufacturing such devices. (5th September 1956). [Divisional date 24th May 1957.]

62451. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Sulfonyl-ureas and process of preparing them.
62452. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for welding stretched foils of weldable thermoplastic materials.
62453. General Electric Company. Grain Oriented Sheet Metal.
62454. Purvin & Gertz, Inc. Production of styrene and related compounds.
62455. J. Martin. Aircraft Ejection Seats. (21st December 1956).
62456. Unilever Limited. Apparatus for assembling and filling containers.

3rd December 1957

62457. A/S Dumex (Dumex Limited). A method for the isolation of gamma-picoline.
62458. Chas. Pfizer & Co. Inc. Animal Feeds.
62459. American Home Products Corporation. Absorbent composition.
62460. British Timken Limited. A method of an means for rectifying distortion and expansion of the race members of roller bearings. (28th February 1957).
62461. Farbenfabriken Bayer Aktiengesellschaft. Dyeing and printing of textiles.
62462. General Electric Company. Gas Turbine Rotor.
62463. Cilag Limited. New 1-AZA-(2,3:5,6)-Dibenzocycloheptadiene derivatives, their acid salts and quaternary salts, and the production thereof. (21st December 1956).
62464. Ciba Limited. Anthraquinone vat dyestuffs and process for their manufacture.
62465. A. E. I.-John Thompson Nuclear Energy Company Limited. Improvements relating to nuclear reactors. (3rd December 1956).
62466. Thomas Marshall & Company (Loxley) Limited. Method of manufacturing refractory insulating materials and refractory insulating products thereof. (4th December 1956).
62467. Ciba Limited. A new antibiotic, its conversion and fission products and process for the manufacture of these compounds.
62468. Dr. C. Otto & Comp. G.m.b.H. Bracing for industrial furnaces.

4th December 1957

62469. Bishnu Banerjee and Sailendra Kumar Ghosh. Antibiotic Cosmetic preparations.
62470. The General Electric Company Limited. Improvements in or relating to thermocouples. (18th December 1956).
62471. Commissariat A L'Energie Atomique. Improvements in valves for controlling gas streams flowing at very low flow rates.
62472. Luwa A. G. Apparatus for Cleaning Thread-Carrying Cylinders in Spinning Machines. (9th January 1957).
62473. P. D. Pudanjee. Improvements in or relating to the production of bleached pulp for the manufacture of paper and for like purposes.
62474. F. P. Somogyi. Improvements in or relating to the heat treatment of materials in vertical shaft furnaces. (5th December 1956).
62475. N. V. Organon. Process for the preparation of long-acting insulin preparations.
62476. H. Grunow and B. Mellbin. Process of activating an aqueous bleaching solution containing alkali and alkaline earth chlorite.
62477. Amagasaki Seitetsu Kabushiki Kaisha. Turntables.
62478. Amagasaki Seitetsu Kabushiki Kaisha. Car Wheels.
62479. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Improvements in or relating to thermoplastic compositions.

#### Alteration of Date

61697. Ante-dated to 17th December 1956 under Section 5 of the Act.

#### Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the India Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

56720. Standard Oil Company. Improvements in or relating to polymerization of normally gaseous mono-olefins. Accepted on 4th December 1957.

*Polymerising mono olefinic hydrocarbon with 2 to 4 carbon atoms with catalyst i.e. oxide of metal of group 5a or 6a with cocatalyst, Al R<sub>3</sub>, R being hydrogen or monovalent hydro carbon radical.*

56723. D. G. Gokhale. A method and an apparatus for condensing and separating liquids from a mixture of vapours containing the same. Accepted on 3rd December 1957.

*Consisting of a jacketed cylindrical tank, inlet pipes for feeding a condensing media and mixture of vapours and means to create vacuum inside the tank.*

57170. St. Anne's Board Mill Company Limited. Improvements in or relating to apparatus for use in the making of paper or board. (18th May 1955). [Addition to No. 50069.] Accepted on 29th November 1957.

*One further slice is arranged serially along the parallel section of the lower run.*

57245. The General Electric Company Limited. Improvements in or relating to electrical gas discharge tube counting or distributing circuits. (10th May 1955). Accepted on 29th November 1957.

*Including at least two input leads, at least two control devices connected to the input leads, a separate signal carrying lead connected to each control devices and a plurality of gas tubes connected in cascade to form a chain.*

57460. C. Vaccarino and G. Vaccarino. Process for neutralizing vegetable or animal oils or fats within a watersoluble solvent. Accepted on 29th November 1957.

*Treating oils dissolved in lipophilic-hydrophilic solvent with aqueous alkaline solution.*

57475. Atag-Trust. Mast section constituting a structural element for the assembly of masts, in particular aerials and erection masts. Accepted on 30th November 1957.

*Individual mast sections provided in the longitudinal direction with plug-in-fastenings.*

57494. Dr. K. Ziegler. Process and apparatus for the production of dialkyl aluminium hydrides and aluminium trialkyls. (3rd April 1956). Accepted on 29th November 1957.

*Wherein aluminium is heated with an aluminium trialkyl and hydrogen at a pressure higher than 20 atmospheres.*

57508. The Holo-Krome Screw Corporation. Forging process. Accepted on 29th November 1957.

*Heating a steel blank to a temperature in excess of 200°F, subjecting the slug in a forging die to successive punching pressures so that metal is moved radially and axially of direction of application of the punching pressure.*

57514. Jenaer Glasswerk Schott & Gen. Process for the production of alkali-resistant instrument glasses, and instrument glass manufactured by this process. Accepted on 3rd December 1957.

*Introducing zirconium oxide in the glass melt.*

57516. Veb Sturmlaternenwerk Beierfeld. Lantern top for hurricane lantern. Accepted on 28th November 1957.  
Outer chimney open at top and drawn to height of or above the height of inner chimney and closed at lower end with brim having a flat surface with rounded off corners raised to reach the side of inner chimney, the brim being fixed vertically to the axis of the lantern and having apertures.
57531. J. R. Geigy A.-G. Eugenol glycolic acid and isoeugenol glycolic acid amides. Accepted on 4th December 1957.  
Reacting eugenol or isoeugenol glycolic acid with a primary or secondary amine.
57542. Naamloze Vennootschap Hollandse Signaalapparaten. Machine for winding filaments or yarns. (8th June 1955). Accepted on 30th November 1957.  
Relative movement of the spindle carrying yarn package and the frame, in which the device determining the spot where the yarn is wound on the yarn package moves to and fro.
57623. Mid-Century Corporation. Process for the preparation of triisopropylbenzene. Accepted on 28th November 1957.  
Reacting 2.4 to 3.5 mols. of propylene with mol of benzene in presence of acid reacting triedel craft type alkylation catalyst.
57969. Chas. Pfizer & Co., Inc. Therapeutic composition. Accepted on 2nd December 1957.  
Comprising a novobiocin antibiotic and a tetracyclic type antibiotic, the content of former being 10–90 per cent.
57986. T. Sakanoue. An improved continuously cleaning device of the suction type capable of promoting the carding action of the carding engine. Accepted on 2nd December 1957.  
Comprising of rotating drum, lead screw suction channel suction pipe, nozzle tube and guide pipe.
57999. Societe Anonyme des Manufactures des glaces et Produits Chimiques de Saint-Gobain, Chauny & Cirey. Synthetic resins and method for the preparation thereof. Accepted on 28th November 1957.  
Treating polyamine with condensation product of diglycidyl ether  $\text{CH}_2-\text{CH}-\text{CH}_2-\text{O}-\text{CH}_2-\text{CH}-\text{CH}_2$  and anhydride of organic diacid.
58072. The Wellcome Foundation Limited. Improvements in and relating to diquaternary compounds and the manufacture thereof. Accepted on 4th December 1957.  
By reacting a diamine with a quaternising agent.
58173. Walzwerk Neviges, Willy H. Schlieker & Co. Process and apparatus for the production of sheet metal. Accepted on 2nd December 1957.  
Continuously welding sheets end on end for passing them through a heat treatment zone and separating them subsequently.
58194. Aeroquip Corporation. Flexible hose line assembly. Accepted on 28th November 1957.  
Comprising in combination with an end fitting having socket, sleeve, nipple and a lip seal portion of the tube disposed.
58271. V. K. Govinda Menon and P. Jayaramdas. Ball or socket-ended screwed rod for attaching direct to ball and socket type disc insulators. [Addition to No. 58373.] Accepted on 2nd December 1957.  
End of the screwed rod remote from the screwed end is shaped or formed as a ball or socket adapted to fit into the socket or on to the ball at the other end of insulator.
58329. C. Deyrail. Prefabricated electrical installation. Accepted on 29th November 1957.  
Comprises flexible metal sheaths in which electric wires slide freely.
58356. V. R. Altet. Improvements in and relating to pyramidal structural units and structures formed therefrom. (8th September 1955). Accepted on 4th December 1957.  
Comprising a rectangular base and a pair of triangular side frames connected at their bases and apices and means at their apices for connecting together a number of units.
58361. N. V. Koninklijke Pharmaceutische Fabrieken v/h Brocades-Stheeman & Pharmacia. Process for the separation of a therapeutically important fraction from the ester mixture obtained from 3, 5, 5-thimethylcyclohexanol and mandelic acid. Accepted on 30th November 1957.  
The fraction is isolated by distillation from the crude ester mixture.
58379. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a method of producing vitamin A. Accepted on 2nd December 1957.  
-ionone is condensed with cyanoacetic acid, the product is decarboxylated and the acetonitrile is converted into an aldimine complex which is hydrolysed to  $\beta$ -ionylidene acetaldehyde, the aldehyde being condensed with acetone and resulting  $\text{C}_{11}$ -ketone being subjected to the same steps as before to obtain vitamin A aldehyde which is reduced to obtain vitamin A.
58389. Compania Nacional De Productos. Improvements in arc welding processes and electrodes thereof. Accepted on 30th November 1957.  
Of the consumable electrode type.
58390. Satya Narayan Poddar. Improvements in or relating to bobbins. Accepted on 2nd December 1957.  
Bobbin disks are secured to the shank by plugs having bore, axial with the bore of the shank.
58453. Trading Company Ltd Hegt & Co. Ltd. Improvements in or relating to loom pickers. Accepted on 28th November 1957.  
The bushes of synthetic material are filled within the bores in the head of the picker through which the shaft passes.
58492. Algemene Kunstzijde Unie N.V. Process and apparatus for continuous manufacturing of artificial threads according to the wet-spinning method. Accepted on 29th November 1957.  
The threads are led through each strengthening bath with the aid of a positively driven roller partly immersed in the liquid and having a diameter of at least 40 cm.
59079. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of reducing unsaturated compounds with an alkaline or alkaline-earth metal in liquid ammonia. Accepted on 28th November 1957.  
Wherein a solution of the compound is caused to react with an alkaline or alkaline earth metal in liquid ammonia, the organo-metal product obtained being decomposed.
59123. Salil Kumar Chatterjee. A novel indoor-game for running a race round the world by means of token plane. Accepted on 4th December 1957.  
Comprising two world maps with airports marked therein token planes indicator and navigating instrument.
59175. Metallgesellschaft A.G. Process of heat treatment of material preferably pellets of ores. Accepted on 2nd December 1957.  
Mixing solid fuel with materials to be heat treated and burning the same to provide a part of the heat required for the process.
59178. Metallgesellschaft A.G. Method of driving and roasting or roasting and sintering. Accepted on 2nd December 1957.  
Material are charged on the grate in two layers, the lower layer consists of raw material to be treated without admixture of fuel and the uppermost layer atleast partially from return material.

59232. Chemie Grunenthal G.m.b.H. Novel antibioticly active products. [Addition to No. 53933.] Accepted on 2nd December 1957.  
A basic antibiotic is reacted with pantothenol or a functional derivative thereof.
59274. Creed & Company Limited. Flat-copy scanner. Accepted on 3rd December 1957.  
Means for comparing the frequency a constant standard frequency source and means for applying two error signals resulting from two comparisons.
59362. T. D. Rao. Improved electric time switch. Accepted on 30th November 1957.  
Adapted to be operated by any alarm clock.
59367. J. Stone & Company (Deptford) Limited. Improvements relating to electrical supply systems. Accepted on 28th November 1957.  
Means for regulating excitation current obtained by rectification of generated alternating current.
59746. Sandoz A. G. Process for the Preparation of New Piperidine Derivatives. Accepted on 2nd December 1957.  
A deiphenyl amine derivative is condensed with a halogenoethyl piperidine derivative.
59761. The British Thomson-Houston Company Limited. Improvements relating to time base circuit arrangements. (8th March 1956). Accepted on 28th November 1957.  
Including a time base condenser and a discharge transistor connected to the condenser electrode whose voltage varies in sweeps.
59762. The British Thomson-Houston Company Limited. Improvements relating to electronic circuit arrangements for generating delayed pulses. (8th March 1956). Accepted on 28th November 1957.  
Including a transistor having transformers coupling between input and output electrodes.
59833. Osaka Machine Mfg. Co. Ltd. A Timing device. Accepted on 2nd December 1957.  
A rigidly fixed and a loosely fitted cam placed side by side on a shaft and a helical spring provided between them.
59938. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to ferromagnetic materials. Accepted on 2nd December 1957.  
Ferromagnetic material comprising crystals of compounds having a chemical composition according to the formula  $Ba^{II} \begin{matrix} Sr & Pb & Ca & Mo \\ (3-a-b-c) & a & b & c \end{matrix}$  where Mo is at least one of the bivalent (2-d) d 24 41<sup>2</sup> metals, and where  $0 \leq a \leq 1$ ,  $0 \leq b \leq 0.6$ ,  $0 \leq c \leq 0.3$ ,  $0 \leq d \leq 2$ .
60023. Kralovopolska strojirna, zavod Klementa Gottwalda, narodni podnik. Method of erecting storage structures. Accepted on 29th November 1957.  
Part of structure moved or revolved on a helical foundation until a free gap is formed for the following plates.
60175. Ciba Limited. Process for the oxidation of anthracene to anthraquinone. Accepted on 30th November 1957.  
Anthracene vapour is mixed with a stream of hot gas containing oxygen so that the composition of the mixture does not exceed the critical explosion limit.
60176. Ciba Limited. Method of and apparatus for condensing a sublimate from a hot carrier gas. Accepted on 30th November 1957.  
The carrier gas containing the sublimate having a temperature above vaporisation temperature of water is contacted with a mist of water at about its b.p., whereby the carrier gas is cooled and the sublimate is condensed.
60177. Ciba Limited. Improved catalytic reaction vessel. Accepted on 30th November 1957.  
The vessel comprises a reaction chamber with an inlet and an outlet at least two gas permeable layers of catalyst extending transversely of the direction of gas flow and means for charging and discharging catalyst from each layer independent of the other layer.
60402. Textil-Apparatefabrik A.G. Loom equipment for weaving in symbol sequences. Accepted on 30th November 1957.  
Scanning the stencil carriers and transmitting the scanned result to warps, the stencil carriers being actuated by a searching instrument in a sequence predetermined by a selector.
60413. Massey-Harris-Ferguson (Great Britain) Limited. Improvements in or relating to tractor front mounted load carriers. (25th May 1956). Accepted on 28th November 1957.  
The framework has means for pivotal connection at transversely spaced points on the front axle of the tractor.
60439. D. Napier & Son Limited. Control systems for power plants having at least two power units. (14th May 1956). Accepted on 29th November 1957.  
Override device of the power control mechanism is automatically operated when the torque from one power unit falls below a predetermined value.
60447. B. H. Pedersen. Process and apparatus for producing sheets of thermoplastic material. Accepted on 28th November 1957.  
Progressively displacing tube formed by adhered juxtaposed convolutions of filaments on former and then cutting same axially.
60474. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to sources of radiation having a luminescent layer. Accepted on 29th November 1957.  
The luminescent layer containing  $\beta$ -orthophosphate of calcium and/or strontium activated by 0.1 to 10 mol per cent of bivalent tin, in which the calcium-to-strontium ratio in moles lies between 100:0 and 1:99 and wherein a portion of the calcium and/or strontium is replaced by zinc.
60500. Ministerul Industriei Petrolului Si Chimiei. Improvements in or relating to phosphatic manures. Accepted on 30th November 1957.  
A mixture of apatite, common salt, sand carbonaceous material and water glass is calcined.
60701. F. Hoffmann-La Roche & Co., Aktiengesellschaft. Process for the manufacture of xanthene derivatives. Accepted on 30th November 1957.  
By reacting xanthene and thioxanthenes with organo metallic compound.
60744. Sandvikens Jernverks Aktiebolag. A percussion Drill bit. Accepted on 2nd December 1957.  
Bit body having a cutting end and a drill rod securing end, a plurality of hard metal cutting inserts arranged peripherally and centrally on the cutting end.
60824. Tanabe Seiyaku Company Limited. Process for preparing calcium aluminato-4-aminosalicylate. Accepted on 28th November 1957.  
Salt containing calcium, acid and aluminium in the mol ratio of 1:2:1 is prepared by reaction of free aluminato-4-aminosalicylic acid, its ammonium salt or alkali salt on  $Ca(OH)_2$  or water soluble calcium salts.
60933. Ramapati Ghosh. Group or Gang Operated Rotatable Insulator Switch. Accepted on 29th November 1957.  
Two insulators fixed and mounted on each side of a rotatable insulator.
60965. Standard Telephones And Cables Limited. Circuit arrangement for the transmission of signal pulses according to the voltage-comparison method. Accepted on 30th November 1957.  
Only one common source of voltage is assigned to the whole arrangement and voltages to be compared are generated by current from the common source of voltage on non-linear resistances arranged in the transmitters and receivers.
61015. VEB Luckenwalder Metallwarenfabrik. Automatic Selling Machine of piece-goods from shelves of a fixed receptacle. Accepted on 3rd December 1957.  
Interlocking of compartment flaps takes place by means of electromechanism and while releasing a chosen department all other shelves remain blocked.

61608. General Steel Castings Corporation. Railway vehicle trucks. Accepted on 2nd December 1957.

*Pedestals depend from side of a rigid truck frames and slidably receive journal boxes.*

61697. The British Drug Houses Limited. Improvements in or relating to diethylphenylacetic acid. (4th January 1956). [Divisional date 17th December 1956.] Accepted on 4th December 1957.

*A dialkali metal derivative of phenyl acetonitrile in liquid ammonia is treated with an ethyl halide and the resulting compound is hydrolysed.*

#### Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

53133. 53137. 53146. 53295. 53319. 53737. 53739. 53769. 53779.  
53800. 53843. 53863. 53889. 53895. 53958. 54111. 54319. 54640.  
54782. 54804. 54811. 54878. 54911. 54921. 54968. 55034. 55077.  
55078. 55105. 55107. 55112. 55117. 55173. 55291. 55324. 55403.  
55458. 55442. 55478. 55492. 55503. 55583. 55607. 55646. 55737.  
55769. 5615. 56083. 56145. 56279. 56318. 56327. 56430. 56463.  
56542. 56544. 56658. 56821. 57094. 57095.

#### Patents Sealed

#### Appeal Proceedings

##### (Section 9)

The appeal filed by Messrs. J. R. Geigy, A.-G. as notified in Part III—Section 2 of the Gazette of India, dated the 15th June 1957, has been rejected by the Central Government.

#### Amendment Proceedings

##### (1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Dr. Karl Ziegler, of Kaiser-Wilhelm-Platz 1, Mulheim-Ruhr, West Germany, Professor, of West German Nationality seek leave to amend the application, in respect of Patent application No. 55135. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

##### (2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that The British Tabulating Machine Company Limited, a British Company, of 17 Park Lane, London, W.1, England, seek leave to amend figure 3 of the drawings in respect of Patent application No. 57728. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

##### (3)

The amendment proposed by John Wesley Stafford in respect of Patent application No. 55280 as advertised in the Gazette of India, Part III, Section 2, dated the 24th August 1957 has been allowed.
